

VAL6®

ODORLESS, SMOKELESS, PORTABLE RADIANT AND INFRARED HEATERS

THANK YOU FOR PURCHASING A KBE5S-V FLOOR MODEL!

Make sure your floor model is fueled & ready to demonstrate for your customers to
“Feel the Difference”.

Included in point of purchase kit you will find:

- (10) Full Color Large Bi-Fold Brochures.
- (20) Full Color Flyers.
- (1) 24" x 14" P.O.P. Stand Up Display.
- (1) 4" x 6" Hang Tag for KBE5S-V.
- (1) Foam Counter mat.

Visit www.NAPAHeaters.com/training for a quick tutorial on how to sell a VAL6 heater like focusing on features & long term cost savings compared to other portable heating options.

Display Tips:

- Your stand up display is made with a square cut out in the bottom to accommodate the raised cross bolt in the center of the top of the KBE5S-V, which will prevent tip-overs and allow the display to sit evenly.
- Attach the hang tag on the side of the heater, not the front, to prevent a fire hazard during operation.
- The sleeve on the back of the display is pre-filled with (10) color flyers for your convenience. An additional (10) can be found in your box. For more flyers, please email swilliamson@energylogic.com or visit napaheaters.com/training
- Remove the display and tilt the face upward before turning on the heater.
- Please **fill your heater with kerosene or diesel** (NO GASOLINE) at setup. Customers will want to see the heater work.
